4. E-RATE SUPPLEMENTAL TERMS AND CONDITIONS

Signed copy to be returned with bid response.

The Telecommunications Act of 1996 established a fund by which Schools and Libraries across the Country could access discounts on eligible telecommunications products and services. The program is commonly known as the E-rate Program. The eligibility for discounts on internet access, telecommunications products and services, internal connection products, services and maintenance is determined by the Federal Communications Commission (FCC). Funding is made available upon application approval by the Schools and Libraries Division (SLD) of the Universal Service Administrative Company (USAC), which was established by the Act. The amount of discount is based on the numbers of students receiving free and reduced price meals.

1. **E-RATE CONTINGENCY**

The project herein is contingent upon the approval of funding from the Universal Service Fund's Schools and Libraries Program, otherwise known as E-rate. Even after award of contract(s) and/or E-rate funding approval is obtained, the District may or may not proceed with the project, in whole or in part. Execution of the project, in whole or in part, is solely at the discretion of the District.

2. **SERVICE PROVIDER REQUIREMENTS**

The District expects Service Providers to make themselves thoroughly familiar with any rules or regulations regarding the E-rate program.

- a) Service Providers are required to be in full compliance with all current requirements and future requirements issued by the SLD throughout the contractual period of any contract entered into as a result of this RFP.
- b) Service Providers are responsible for providing a valid SPIN (Service Provider Identification Number). More information about obtaining a SPIN may be found at this website: <http://www.usac.org/sl/service-providers/step01/default.aspx>
- c) Service Providers are responsible for providing a valid Federal Communications Commission (FCC) Registration Number (FRN) at the time the bid is submitted. More information about obtaining an FRN may be found at this website: <https://fjallfoss.fcc.gov/coresWeb/publicHome.do>
- d) Service Providers are responsible for providing evidence of FCC Green Light Status at the time the bid is submitted. Any potential bidder found to be in Red Light Status will be disqualified from participation in the bidding process and will be considered non-responsive. More information about FCC Red and Green Light Status may be found at this website: http://www.fcc.gov/debt_collection/welcome.html
- e) Products and services must be delivered before billing can commence. At no time may the Service Provider invoice before July 1, 2019.
- f) Prices must be held firm for the duration of the associated E-rate Funding Year(s) or until all work associated with the project is complete (including any contract and USAC approved extensions).
- g) Goods and services provided shall be clearly designated as "E-rate Eligible". Non-eligible goods and services shall be clearly called out as 100% non-eligible or shall be "cost allocated" to show the percentage of eligible costs per SLD guidelines.

- h) Service Providers must have a valid USAC Form 473 on file for the entire E-Rate funding year 2016, 2017 and 2018.
- i) **Within one (1) week of award, the awarded Service Provider must provide the District a bill of materials using a completed USAC “Item 21 Template”. Subsequent schedules of values and invoices for each site must match Item 21 Attachment or subsequent service substitutions.**
- j) In the event of questions during an E-rate pre-commitment review, post-commitment review and/or audit inquiry, the awarded Service Provider is expected to reply within 3 days to questions associated with its proposal.
- k) The awarded Service Provider is required to send copies of all forms and invoices to the District prior to invoicing USAC for pre-approval. Failure to comply with this requirement may result in the District placing the Service Provider on an “Invoice Check” with the USAC
<http://www.usac.org/sl/applicants/step07/invoice-check.aspx>
- l) Services providers must comply with the FCC rules for Lowest Corresponding

Price ("LCP"). Further details on LCP may be obtained at USAC's website:
<http://www.usac.org/sl/service-providers/step02/lowest-corresponding-price.aspx>

3. **SERVICE PROVIDER ACKNOWLEDGEMENTS**

- a) The Service Provider acknowledges that no change in the products and/or services specified in this document will be allowed without prior written approval from the district and a USAC service substitution approval with the exception of a Global Service Substitutions.
- b) The Service Provider acknowledges that all pricing and technology infrastructure information in its bid shall be considered as public and non-confidential pursuant to §54.504 (2)(i)(ii).
- c) The Service Provider acknowledges that its offer is considered to be the lowest corresponding price pursuant to § 54.511(b). Should it not be the lowest corresponding price, the service provider must disclose the conditions leading to the applicant being charged in excess of lowest corresponding price.
- d) This offer is in full compliance with USAC’s Free Services Advisory
<http://www.usac.org/sl/applicants/step02/free-services-advisory.aspx>. There are no free services offered that would predicate an artificial discount and preclude the applicant from paying its proportionate non-discounted share of costs. The service provider agrees to provide substantiating documentation to support this assertion should the applicant, USAC, or the FCC request it.

4. **STARTING SERVICES/ADVANCE INSTALLATION**

The annual E-rate Funding Year begins on July 1 and expires on June 30 of each calendar year. Regardless of the contract “effective date”, E-rate eligible goods and/or services requested in this RFP shall be delivered no earlier than the start of the 2024 funding year (July 1, 2024). If Category 1 services (Telecommunication Services and Internet access) will begin on or shortly after July 1 of a funding year, the service provider, in some cases, may need to undertake some construction and installation work prior to the beginning of that funding year. Within the limitations indicated below, the infrastructure costs of a service provider can be deemed to be delivered at

the same time that the associated Category 1 services begin. That is, if services begin on July 1, then the delivery of service provider infrastructure necessary for those services can be considered as also delivered on July 1.

5. **EARLY FUNDING CONDITIONS**

Category 1

There are four conditions that must be met in order for USAC to provide support in a funding year for Category 1 infrastructure costs incurred prior to that funding year.

- a) *Initiation of installation cannot take place before selection of the service provider pursuant to a posted Form 470 and in any event no earlier than six months prior to July 1 of the funding year.*
- b) *The Category 1 service must depend on the installation of the infrastructure.*
- c) *The underlying Category 1 service cannot have a service start date prior to July 1 of the funding year.*
- d) *No invoices can be submitted to USAC for reimbursement prior to July 1 of the funding year.*

For more information, please refer to the FCC Order involving the Nassau County Board of Cooperative Educational Services (<http://e-ratecentral.com/files/fcc/DA-02-3365.pdf>), released December 6, 2002). This FCC decision only applies to Category 1 services (telecommunications services and Internet access).

The complete text can be found at the following URL:
<http://www.usac.org/sl/applicants/step05/installation.aspx>

Category 2

There is one condition that allows USAC to provide support in a funding year for Category 2 installation costs incurred prior to that funding year.

- a) *We also amend our rules for category two non-recurring services to permit applicants to seek support for category two eligible services purchased on or after April 1, three months prior to the start of funding year on July 1. This will provide schools with the flexibility to purchase equipment in preparation for the summer recess and provide the maximum amount of time during the summer to install these critical networks.*

For more information, please refer to the FCC Report and Order and Further Notice of Proposed Rulemaking (https://apps.fcc.gov/edocs_public/attachmatch/FCC-14-99A1.pdf released July 23, 2014). This FCC decision only applies to Category 2 services (Internal Connections).

6. **INVOICING**

- a) The Service Provider agrees to bill and receive a portion of the payment for the provisions of goods and services described herein directly from USAC via the Form 474 Service Provider Invoice (SPI). The District will only be responsible for paying its non-discounted share of costs and does not intend to use the BEAR process (Form 472). The maximum percentage the District will be liable for is the pre-discount

amount minus the funded amount as shown on the FCC Form 471 Block 5 and any identified ineligible costs. Upon the successful receipt or posting of a Funding Commitment Decision Letter from the SLD and submission and certification of Form 486, the District shall pay only the discounted amount beginning with the billing cycle immediately following said approval. Alternatively, should the District decide that it is in the best interest of the District to file a Form 472, the District will inform the Service Provider of its intent.

- b) All Service Provider invoicing to USAC must be completed within 120 days from the last day of service. Should the Service Provider fail to invoice USAC in a timely manner, the District will only be responsible for paying its non-discounted share.

7. FCC/SLD AUDITABILITY

The E-rate program requires that all records be retained for at least ten (10) years from the last date of service provided on a particular funding request. Respondent hereby agrees to retain all books, records, and other documents relative to any Agreement resulting from this RFP for ten (10) years after final payment. The District, its authorized agents, and/or auditors reserves the right to perform or have performed an audit of the records of the Respondent and therefore shall have full access to and the right to examine any of said materials within a reasonable period of time during said period.

8. PROCUREMENT OF ADDITIONAL GOODS AND/OR SERVICES/COTERMINOUS EXPIRATION

During the term of any Agreement resulting from this RFP, the District may elect to procure additional or like goods and/or services offered by the Respondent. Such services shall be negotiated and obtained via an official amendment to this Agreement and approval by the District’s Governing Board. All terms, conditions, warranties, obligations, maintenance and support of said goods or services shall have a coterminous expiration date with the original date of this Agreement. The District shall not enter into a separate Agreement for said goods or services. Respondents must state in their proposal that they acknowledge, accept and are in agreement with coterminous expiration conditions

I, the undersigned, as an authorized agent of _____(Service Provider Name), hereby certify that I have read the E-rate Supplemental Terms and Conditions, am fully compliant and intend to cooperate with the E-rate process as outlined above.

Victor Elementary School District is soliciting proposals for private (non-shared) Wide Area Network (WAN) services, including on premise Category 1 Equipment, which will connect all school sites and remote support sites, including the District office and the San Bernardino County Office of Ed. The District desires service using fiber optic media and providing **bandwidth scalable from a minimum of 1GigE up to 40GigE from each location as listed on Attachment "A."** Point-to-point and MESH options will be considered.

Victor Elementary School District currently has a WAN that connects twenty-two (22) school sites and operational facilities, including the District Office and the San Bernardino County Office of Ed (ISP and Financial Services), connected through leased fiber connections. The requested WAN services will terminate at 12219 2nd Ave, Victorville, CA 92395, and provide connectivity for all Victor Elementary School District school sites and facilities. A list of these sites, street addresses and required Committed Information Rates ("CIR") appear in **Appendix A** of this RFP.

This project is contingent upon approved project funding from the federal E-rate program (Schools and Libraries Division, or "SLD"). Victor Elementary School District may or may not undertake this project at its sole discretion. In addition, Victor Elementary School District will require that the awarded service provider ensure that all eligible components of service are filed with the California Public Utilities Commission (CPUC) and are eligible for the California Teleconnect Fund (CTF) discount.

Vendors will bid only eligible products and services as described in the following links:

SITE CONDITIONS

It will be the responsibility of the Service Provider to become informed of all conditions under which work is to be done before submitting proposals. No additional costs will be incurred by the DISTRICT or considerations given to any claims by the Service Provider based on a lack of knowledge of existing conditions. The submission of a bid from the Service Provider is an acknowledgement and agreement to this stipulation.

10. WAN REQUIREMENTS

Service must be capable of delivering symmetrical dedicated bandwidth configurable from 1Gbps to 40Gbps using Layer 2 Ethernet protocol over fiber to each site. Demarcation hand-off will be a 1000Base, 10GBase, or 40GBase connection. Service Provider will provide and maintain all premise equipment necessary to provide the District with the specified handoff and type of service requested.

- a) The District Data Center located in the Victor Elementary School District Office, 12219 2nd Ave, Victorville CA 92395, is to serve as the termination point for the network. At present, twenty-two (22) Victor Elementary School District sites, including the San Bernardino County Office of Ed, are connected via Spectrum managed service connections. With this RFP, Victor Elementary School District intends to maintain or increase current aggregate bandwidth to the twenty-two (22) sites on managed connections (See "Appendix A" for details). The assignment of schools to particular network segments for bundling is at the discretion of the Service Provider.
- b) All twenty-two (22) Victor Elementary School District school sites and facilities shall have a minimum data connection CIR of 1 Gbps full-duplex up to a CIR of 10 Gbps; specific sites (See "Appendix A" for details) require a minimum CIR of 20 Gbps full duplex; up to a CIR of 40 Gbps in 5 Gbps INCREMENTS.
- c) Victor Elementary School District desires the ability to vary bandwidth in the future to meet demand. Proposals may include rates for higher bandwidth connections and should describe the Service Provider's ability to scale the proposed solution to meet greater bandwidth demands.
- d) The Service Provider shall deliver the requested CIR at full bandwidth at each school directly to the District Data Center on a full availability basis, 24/7. This service can be aggregated at the design of the carrier so as not to have 22 individual circuits terminating directly at the District Data Center.
- e) The service handoff at each site will be a 1000Base, 10GBase, or 40GBase connection, as appropriate for the site, delivered to each site's Main Distribution Facility ("MDF"). Service Provider will provide and maintain all premise equipment necessary to provide the District with the specified handoff and type of service requested. The precise site location of the MPOE or DEMARC, or "handoff point" shall be determined by Victor Elementary School District Network and Engineering staff at the sites listed in **Appendix "A"** of this RFP.
- f) The network will require a minimum aggregated bandwidth of twenty (20) Gbps into the WAN Network to simultaneously support all sites maximum access rates.
- g) The District will need to be able to differentiate between the various campuses in terms of traffic flow. This could be accomplished by multiple point-to-point physical links between the campuses and the District Office or MPLS or some other "partitioning" scheme. The Vendor is directed to describe in detail how this will work in their proposal.
- h) The Service Provider shall specify that this network is a managed solution and the Service Provider will provide all necessary hardware and software accordingly. As part of the proposal, the Service Provider will make known the space requirements for installed equipment at sites and District Office. Network outage resolution should be coordinated with Victor Elementary School District technical staff.
- i) The Service Provider must provide easy access to help desk and repair services. A clear, documented procedure must be defined for severe problem escalation with appropriate response times delineated in proposal. The Service Provider will provide critical alerts to Victor Elementary School District Technical Contacts via email, and notification of service outages via telephone to Victor Elementary School District Technical Contacts along with status and estimated time of restoral (ETR). This alert service will be maintained for the duration of the contract.
- j) The circuits shall be capable of carrying multiple protocols such as IP Data, Voice over IP (VoIP) telephony, streaming digital video, teleconferencing, etc. Jitter and latency shall be within industry accepted limits for typical services of these types. The WAN must support the transmission of QoS ("Quality of Service") tags implemented by Victor Elementary School District between endpoints.

- k) All equipment including but not limited to switches, cabling, connectors, etc. necessary to provide this connectivity shall be provided by the Service Provider. All installed equipment shall operate with the electrical capacity provided by a dedicated 20 AMP service per equipment rack. Each endpoint must be capable of operating for a minimum of 60minutes in the event of local power failure. Specifically, the equipment providing the WAN handoff at each site must be protected by a suitably sized uninterruptable power supply (“UPS”).
- l) Currently Victor Elementary School District’s MDFs have either four-post or two-post racks in each location with a minimum of 5U available space for Service Provider equipment. Vendor is responsible for providing any additional racks or hardware for mounting Service Provider equipment.
- m) The DISTRICT requires that the entire WAN network be constructed before any segment is activated, and billing for all sites initiates after all construction has occurred and not before July 1, 2024. The term “fully operational” is defined as error free network connectivity at the specified CIRs, delivered to all sites without failures for at least 72 hours. Vendor must provide certification reports of CIR, jitter, latency, and interface error metrics for each endpoint.
- n) Contract must provide cancellation of services without financial penalties if a school is closed. District may cancel services to a school without penalties after a 30-day notice to Service Provider.

11. TRANSITION PLAN

The District requires a transition plan to be provided. This plan is a detailed customer implementation/transition plan, including timeline showing full installation complete by July 1, 2024.

1. The plan is to include the resources to be dedicated to the transition, all costs associated with the transition, a timeline of actions with a completion target date for the supplier and for the District transition team. The transition plan is to outline the expectations the supplier team would have of District and the information or task District is to provide the supplier and the date any information or task would be required.
2. Customer Requirements
 - a) Internal routing scheme shall not be changed except as part of a District approved enhancement.
 - b) Option for growth shall be outlined in the response including, but not limited to, increases in bandwidth and/or additions of locations, as determined necessary by the District.
 - c) Options for removal of sites due to closures or re-organization requirements as deemed necessary by the District. The District will require that there be no early termination charges or other penalties assessed in such situation that is determined to be outside the control of the District.
 - d) Special construction costs (curb to MPOE) should be amortized over the initial contract as part of the monthly recurring cost (MRC). DISTRICT WILL NOT BE RESPONSIBLE FOR ANY EASEMENT/RIGHT OF WAY COSTS INCURRED BY THE PROPOSER WHILE IMPLEMENTING THE SOLUTION.
 - e) Proposers are encouraged to provide alternative pricing that may include one-time costs for special construction (not to exceed the E-Rate program guidelines in any year) with the subsequent MRC adjusted accordingly.

12. QUALIFICATIONS

All Service Providers submitting proposals must demonstrate the ability to participate in the E- rate Program (i.e. must possess a SPIN number). The Vendor must demonstrate to Victor Elementary School District's satisfaction that both the Vendor and the manufacturer(s) of the proposed systems are financially sound and are likely to remain strongly committed to the data communications field and the Victor Valley area for the next five (5) years. Vendor must submit, with the proposal, a copy of their most recent annual report. If Vendor is not a public corporation or has no annual report available, verifiable financial information of a comparable nature to an annual report must be provided.

CONTRACT TERM

Victor Elementary School District will be seeking a contract length of three (3) years with an option for two (2) one (1) year extensions. Funding for this project will be Category 1 E-rate Funding at the District discount rate. Any installation costs associated with the service delivery must be amortized over initial term and is to be included within the monthly service cost.

Winning Service Provider(s) will NOT submit any billing or perform any work without the prior written acceptance of VICTOR ELEMENTARY SCHOOL DISTRICT.
